

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1991 Roulette, Jr., B.R. and J.P. McCarthy
Phase Ib Archeological Survey of the Alternates for the University of Maryland Eastern Shore
Access Road, Somerset County, Maryland.
Submitted to Maryland Department of Transportation, State Highway Administration

Library ID No: 00006102 Catalog/Shelving ID: SO 10

Research Firm/Institution:

John Milner Associates
309 North Matlack Street
West Chester, PA 19380

Sites examined:

18SO147

NRHP Eligible: ☒

[Justification](#)

Project Details:

Phase I ☒

Project Justification:

The purpose of the Phase Ib survey was to document the presence or absence of potentially significant archeological resources within the proposed location of the University of Maryland Eastern Shore Access Road.

Phase II

Phase III

Project Objectives:

-Determine if there were any areas of potentially significant archeological resources within the proposed location of the University of Maryland Eastern Shore Access Road.

Research Potential:

See below for remaining research questions at 18SO147.

REPORT INFORMATION:

1992 Crist, A.J. and J.P. McCarthy
Phase Ib Archeological Survey of Alternates 6/6A Revised and 6/6a Modified for the
University of Maryland Eastern Shore Access Road, Somerset County, Maryland
Submitted to Maryland Department of Transportation, State Highway Administration

Library ID No: 00006103 Catalog/Shelving ID: SO 11

Research Firm/Institution:

John Milner Associates
309 North Matlack Street
West Chester, PA 19380

Sites examined:

18SO147

NRHP Eligible: ☒

[Justification](#)

Project Details:

Phase I ☒

Project Justification:

A second Phase I assessment at 18MO147 was undertaken in late 1991 in order to survey the area of the modified Alternate 6/6A tract.

Phase II

Phase III

Project Objectives:

-Identify any archeological resources within the modified area of construction impact.

Research Potential:

See below for remaining research questions at 18SO147.

REPORT INFORMATION:

1993 Siegel, P.E. and M.J. Wullner
Phase II Archeological Testing of the Loretto Branch Site (18SO147).
Submitted to Maryland Department of Transportation, State Highway Administration

Library ID No: 00006106 Catalog/Shelving ID: SO 14

Research Firm/Institution:

John Milner Associates
309 North Matlack Street
West Chester, PA 19380

Sites examined:

Project Details:

Phase I		Project Justification:	Project Objectives:
Phase II	<input checked="" type="checkbox"/> X	This work was conducted in connection with the proposed construction of Alternate 6/6A Modified of the University of Maryland Eastern Shore Access Road.	-Assess the integrity, significance, and horizontal and vertical extent of the archeological deposits at the site.
Phase III			

Research Potential:

A number of disturbance factors including clearing and plowing have impacted the historic and prehistoric components at the Loretto Branch Site (18SO147). No historic features except for 3 possible post molds were identified. Artifacts representing historic occupations have been mixed and dispersed postdepositionally. The prehistoric component is sparse and has suffered that same postdepositional activity as seen in the historic occupations. Site 18SO147 is not NHRP eligible and further data collection would not contribute significantly to Maryland archeology.
